

## Index to Volume 16

ALLAIN, G.: Small-Time Existence for the Navier-Stokes Equations with a Free Surface .....	37
ANDERSSON, L.-E.: A Maximal Distance Result of Interest in Robotic Simulation .....	217
BAINOV, D. D.: Justification of the Averaging Method for a System of Functional-Differential Equations with Variable Structure and Impulses .....	19
BUTTAZZO, G.: Reinforcement by a Thin Layer with Oscillating Thickness .....	247
CHENAIS, D.: Optimal Design of Midsurface of Shells: Differentiability Proof and Sensitivity Computation .....	93
GERMANI, A.: Finite-Dimensional Approximations for the Equation of Nonlinear Filtering Derived in Mild Form .....	51
HANG-CHIN LAI: An $N$ -Person Noncooperative Discounted Vector-Valued Dynamic Game with a Metric Space .....	135
HURTEAU, G.: see Andersson, L.-E. ....	217
KARANDIKAR, R. L.: On the Feynman-Kac Formula and Its Applications to Filtering Theory .....	263
KOHN, R. V.: see Buttazzo, G. ....	247
LASIECKA, I.: The Regulator Problem for Parabolic Equations with Dirichlet Boundary Control, I .....	147
LASIECKA, I.: The Regulator Problem for Parabolic Equations with Dirichlet Boundary Control, II .....	187
MALANOWSKI, K.: Stability and Sensitivity of Solutions to Optimal Control Problems for Systems with Control Appearing Linearly ..	73
MAUGERI, A.: Convex Programming, Variational Inequalities, and Applications to the Traffic Equilibrium Problem .....	169
MILUSHEVA, S. D.: see Bainov, D. D. ....	19
MORIMOTO, H.: Optimal Switching for Alternating Processes .....	1
PÉREZ-ABREU, V.: Multiple Wiener Integrals and Nonlinear Functionals of a Nuclear Space Valued Wiener Process .....	227

PICCIONI, M.: see Germani, A. ....	51
STEWART, N. F.: see Andersson, L.-E. ....	217
TANAKA, K.: see Hang-Chin Lai ....	135
TRIGGIANI, R.: see Lasiecka, I. ....	147
TRIGGIANI, R.: see Lasiecka, I. ....	217
